

POST-SALE COMMUNICATION

**“Once they've bought, you need
to prevent buyer's remorse.”**

— ALEX HORMOZI

The sale's the start, not the finish.

POST-SALE COMMUNICATION SOP

Operations & Sales Playbook

KEY (casual) tonality | (pause) audio cue | (let them answer) stage direction | [FILL IN] placeholder

THE JOB OF POST-SALE

The moment a customer signs, their brain immediately starts looking for reasons they shouldn't have. It's not weakness, it's wiring — every significant purchase triggers a hunt for buyer's remorse, and solar is no exception. By tomorrow morning they'll be running the numbers in their head, second-guessing the salesperson, wondering if they should've gotten a third quote. That's the window this sequence exists to close.

The job from here is different to the sales job. The customer has already bought. Now you make them feel looked after, kept informed, and part of the family. Warm, low-effort presence beats polished corporate language every time.

What kills referrals isn't a bad install — it's the silence between the sale and the system going on the roof. Customers go from hearing from a rep five times a week during the pitch to hearing nothing for three weeks while admin sorts paperwork. That silence is where doubt grows, where buyer's remorse calcifies, and where the "tell your neighbour" conversation quietly dies. Every touchpoint in this sequence exists to fill that silence with reassurance.

| The sale isn't the close. It's the start of the relationship that earns the next one.

TONE & APPROACH

Across every touchpoint in this document — calls, voicemails, SMS — the tone is casual, friendly, familiar. You're a mate keeping them in the loop, not a corporate rep reading a script. Australian vernacular throughout. These messages don't need to be over-engineered.

- Use the customer's first name. Always.
- Keep SMS short. If it doesn't fit on one phone screen without scrolling, it's too long.
- Don't make promises you can't keep. If timelines slip, communicate early — don't go silent.
- Document everything in the CRM. Notes, call outcomes, customer preferences — all of it.
- Escalate, don't improvise. Admin is the guide, not the specialist. If a question is outside your scope, log it and tag the right team.
- No more than 5–7 days of silence. Between sale and install, if the gap is approaching a week with no contact, drop in a generic warm check-in.
- Loop both partners in wherever possible — group SMS thread, both emails on the CC. Same logic as the follow-up framework: solar's a household decision, don't talk to one half and let the other find out second-hand.

MASTER SEQUENCE

The full communication flow from sale through to long-term follow-up. **REP** = relationship and sales pressure touches. **ADMIN** = process and logistics touches. Triggers count from the preceding event unless stated otherwise.

Phase	Touchpoint	Trigger	Owner	Channel
0	Reaffirm the Decision	Immediately after they say yes	SPECIALIST	Phone
1	Welcome Call	Day +1 from sale	ADMIN	Phone
1	Welcome Call Check	2 days after Welcome Call	REP	SMS
2A	Finance Action Chase #1	Day +1 from sale	REP	SMS
2A	Finance Action Chase #2	2 days after #1	REP	SMS
2A	Finance Action Chase #3	2 days after #2	ADMIN	SMS
2A	Special Offer At Risk	2 days after #3	ADMIN	SMS
2A	Final / Have You Given Up	5 days after Special Offer	REP	Phone + SMS
2B	Approval Update #1	5 days after Welcome Call Check	REP	SMS
2B	Approval Update #2	5 days after #1 (if pending)	REP	SMS
2B	Finance Completion	On approval	REP	SMS
3	Design Approved	On technician sign-off	REP	SMS
4A	Pre-Site Booking Confirmation	Immediately on booking	ADMIN	SMS
4A	Pre-Site Date Check	3 days after booking	REP	SMS
4A	Day Before Pre-Site	Day before pre-site	ADMIN	SMS
4A	Pre-Site Wrap-Up	2 days after pre-site	REP	SMS
4B	Install Date Locked In	On install date confirmation	ADMIN	SMS
4B	Pre-Install Check	2 weeks before install	REP	SMS
4B	Final Confirmation	Day before install	ADMIN	SMS
5	Install Wrap Call + Referral	Day of install (after completion)	REP	Phone
6	7-Day Review Check-In	7 days after install	ADMIN	SMS
6	30-Day Bill Update	30 days after install	ADMIN	SMS
6	3–6 Month Final Check	3–6 months after install	ADMIN	SMS
SN	Generic Warm Check-In	Any 5–7 day silence pre-install	REP	SMS

TOUCHPOINT TOTALS BY SCENARIO

- Smooth cash, immediate install path: ~9 touches
- Smooth cash, pre-site path: ~10 touches
- Smooth finance, immediate install path: ~11 touches

- **Smooth finance, pre-site path:** ~12 touches
- **Stalled finance recovery:** up to ~15 touches

PHASE 0 — REAFFIRM ON THE SALE CALL

Before any admin sequence fires, before any welcome call, before any SMS — the very last beat of the sale call itself sets the tone for everything that follows. Once they've said yes, the closer's job shifts from selling to reaffirming. Make them feel genuinely good about the decision they just made, before they hang up and the doubt starts creeping in.

This isn't a long beat. Thirty seconds, maybe a minute. Just enough warmth at the end of the call that they hang up feeling looked after, not sold to.

0.1 REAFFIRM THE DECISION

Owner: SPECIALIST • Trigger: Immediately after the customer says yes • Channel: Phone

Don't script this one. The moment it sounds rehearsed, it does the opposite of what it's meant to. These are the beats to hit — say them in your own words, in whatever order feels natural for that customer:

- You're genuinely happy for them — they've made a really wise long-term investment.
- You want to congratulate them both.
- Glad they didn't fall for the trap of one of the cheap, rubbish companies — they've gone with the right team.
- They're going to be completely taken care of from this point on.
- You'll personally keep them in the loop the whole way through.
- If they need anything at all, don't hesitate to reach out.
- We genuinely want to do the best by them — that's the whole point of how we operate.
- Optional, only if it's true and natural: tell them they seem like really nice people, you've enjoyed working with them, that kind of thing.

Then move into the practical handoff — when admin will call, what happens next. The warmth and the logistics in the same breath: that's the moment that earns referrals down the line.

PHASE 1 — POST-SALE SETTling

The first 48 hours after the sale. The handoff from rep to admin happens here, and if it's done well the customer feels like they've been picked up by a team that's been waiting for them. If it's done poorly they feel dropped.

1.1 WELCOME CALL

Owner: ADMIN • Trigger: Day +1 from sale • Channel: Phone

CASH VERSION

Use when no finance is involved

Good [MORNING / AFTERNOON] [FIRST NAME], my name is [YOUR NAME] and I'm calling from [COMPANY] — is now an okay time for a quick chat? (casual, friendly) (let them confirm)

I just wanted to give you a call to congratulate you on going solar, and to officially welcome you to the [COMPANY] family. (genuine, warm)

[SALES REP NAME] has handed your file over to our operations team, and I'll be helping you out through the whole install process alongside [SALES REP NAME] — so you've got both of us looking after you. (casual, helpful)

This is really just a quick meet and greet — I'll send through my contact details by text and email shortly, along with a bit of info on what to expect through the process so you've got it all in one spot. (reassuring)

At the moment your file's sitting in our desktop review stage, where our team checks the design and makes sure everything's good to go. (matter-of-fact) Once that's cleared we'll be in touch about either booking in a pre-site visit or locking in your install date directly. (casual)

Are there any days that work better for you, or any time you've got planned away coming up? I can pop a note on your file for the scheduling team. (curious, helpful) (listen / note preferences)

Perfect. Any questions on your end before I let you go? (casual) (answer or escalate)

Easy. If anything comes up between now and then, just give me a buzz on [YOUR MOBILE] or our office on [OFFICE NUMBER]. Thanks [FIRST NAME], have a good one. (friendly)

FINANCE VERSION

Use when finance is involved

Good [MORNING / AFTERNOON] [FIRST NAME], [YOUR NAME] here from [COMPANY] — is now an okay time for a quick chat? (casual, friendly) (let them confirm)

I just wanted to congratulate you on your solar purchase and welcome you to the [COMPANY] family. (genuine, warm)

I can see your system's being financed through [LENDER]. (casual, matter-of-fact) Once your finance approval comes through, they'll let both you and our team know, and your file will move straight into our desktop review stage from there. (reassuring)

I'll be helping you out through the whole process alongside [SALES REP NAME], so you've got both of us looking after you. (helpful) I'll send through my details by text and email along with some info on what to expect at each stage.

Any questions on your end? (casual) (answer or escalate)

All good. If anything comes up just give me a buzz on [YOUR MOBILE] or the office on [OFFICE NUMBER]. Cheers [FIRST NAME], have a good one. (friendly)

VOICEMAIL (if no answer)

Owner: ADMIN • Channel: Voicemail

Hey [FIRST NAME], it's [YOUR NAME] from [COMPANY] — just giving you a quick welcome call now that your file's officially with our operations team. (casual, friendly)

Big congrats on going solar — I'll be helping you out through the install process alongside [SALES REP NAME], so you've got both of us looking after you. (genuine, warm)

At the moment your file's in our desktop review stage where our team checks over the design. Once that's all cleared we'll be in touch about either a pre-site visit or locking in your install date. (matter-of-fact)

No need to call back right now — I'll flick you a text with my details so you've got them, and we'll catch up properly soon. (casual, reassuring) If anything comes up in the meantime, give me a buzz on [YOUR MOBILE] or our office on [OFFICE NUMBER]. Cheers [FIRST NAME], have a good one. (friendly)

POST-VOICEMAIL SMS (sent immediately after)

Owner: ADMIN • Channel: SMS

Hey [FIRST NAME], [YOUR NAME] from [COMPANY] — just left you a voicemail, no stress.

Saving my number here so you've got it. I'm helping out alongside [SALES REP NAME] through the install process, so anything you need just give me a buzz. Talk soon.

1.2 WELCOME CALL CHECK

Owner: REP • Trigger: 2 days after Welcome Call • Channel: SMS

Hey [FIRST NAME], [REP NAME] from [COMPANY] here — just making sure [ADMIN NAME] got hold of you for the welcome call and you're feeling good about everything. Any questions floating around your end let me know — happy to help.

PHASE 2A — FINANCE ACTION CHASE

Runs only if the customer hasn't completed their finance application yet. Goal across all five touches: keep them moving without nagging, escalate stakes if they go quiet, and surface any blockers early.

2A.1 FINANCE ACTION CHASE #1

Owner: REP • Trigger: Day +1 from sale • Channel: SMS

Hey [FIRST NAME], [REP NAME] from [COMPANY] — quick one, looks like your finance app with [LENDER] hasn't been wrapped up yet. Should only take a few mins your end. Once that's through we can get the ball rolling on your install. Yell out if you hit any snags.

2A.2 FINANCE ACTION CHASE #2

Owner: REP • Trigger: 2 days after #1 • Channel: SMS

Hey [FIRST NAME], just circling back — still showing your finance app with [LENDER] as incomplete on our end. Anything I can do to help you get it across the line? Once it's done your file moves straight into design review and we can start mapping out your install date.

2A.3 FINANCE ACTION CHASE #3

Owner: ADMIN • Trigger: 2 days after #2 • Channel: SMS

Hi [FIRST NAME], [ADMIN NAME] here from [COMPANY]. Just touching base from the ops side — we still need your finance application with [LENDER] completed before we can move your file forward. Let us know if anything's holding things up your end and we'll do what we can to help.

2A.4 SPECIAL OFFER AT RISK

Owner: ADMIN • Trigger: 2 days after #3 • Channel: SMS

Hi [FIRST NAME], [ADMIN NAME] from [COMPANY]. Heads up — the special pricing locked in on your deal is tied to your finance being completed within a certain window, and we're getting close to that cut-off. Just want to make sure you don't miss out. If you can get your [LENDER] application wrapped up in the next day or two, you're all good. Give us a yell if you need a hand.

2A.5 FINAL / HAVE YOU GIVEN UP

Owner: REP • Trigger: 5 days after Special Offer At Risk • Channel: Phone first, SMS fallback

PHONE CALL

Owner: REP • Channel: Phone

Hey [FIRST NAME], [REP NAME] from [COMPANY] — got a sec? (casual, friendly)

Just wanted to give you a quick call before we close things out on our end. Haven't heard back from you on the finance side, so I figured I'd reach out personally to check in. (genuine, no pressure)

Has something changed? Or have you decided to go a different direction? (curious, fair) No dramas either way, I just want to make sure we're not chasing if you've moved on, and if you're still keen I'll do whatever I can to help get this across the line. (reasonable, helpful)

VOICEMAIL (if no answer)

Owner: REP • Channel: Voicemail

Hey [FIRST NAME], [REP NAME] from [COMPANY] — just trying to reach you about your solar order. Haven't heard back in a while so wanted to check in personally before we close things out our end. No stress either way, just give me a quick buzz back on [YOUR MOBILE] or shoot me a text. Cheers.

POST-VOICEMAIL SMS

Owner: REP • Channel: SMS

Hey [FIRST NAME], [REP NAME] here — left you a voicemail. No stress, just want to know where your head's at on the solar order. Are you still keen to go ahead, or have things changed your end? Either way's fine, just want to know how to play it.

If no response after this stage: move customer to cancellation / future follow-up bucket.

PHASE 2B — FINANCE APPROVAL UPDATE

Runs once the customer has applied and we're waiting on the lender. Goal: keep them warm and reassured during the silence so they don't start wondering if they've been forgotten.

2B.1 APPROVAL UPDATE #1

Owner: REP • Trigger: 5 days after Welcome Call Check • Channel: SMS

Hey [FIRST NAME], [REP NAME] from [COMPANY] — just keeping you in the loop. Your finance app with [LENDER] is sitting with them for approval. Usually takes a few days to a week or so. Once we get the green light your file goes straight into design review and we'll be in touch with what's next. Hang tight, all tracking nicely.

2B.2 APPROVAL UPDATE #2

Owner: REP • Trigger: 5 days after Update #1 (only if still no approval) • Channel: SMS

Hey [FIRST NAME], quick one — still waiting on [LENDER] to come back with your approval. Sometimes they take a bit longer depending on workload their end, nothing unusual. I'm keeping an eye on it and the second it lands I'll let you know. Cheers for your patience.

2B.3 FINANCE COMPLETION

Owner: REP • Trigger: On finance approval • Channel: SMS

Awesome news [FIRST NAME] — your finance with [LENDER] just came through. That means your file's now moving into our design review stage. Over the next 1–2 weeks our team will check everything over, and from there [ADMIN NAME] will be in touch to lock in either a pre-site visit or your install date. We're moving.

PHASE 3 — DESIGN APPROVAL

Event-triggered: fires when the design is actually approved by technicians, not on a calendar date. Customers love this one — it's the first concrete "we're moving forward" signal after the early waiting period.

3.1 DESIGN APPROVED

Owner: REP • Trigger: On technician sign-off • Channel: SMS

Hey [FIRST NAME], [REP NAME] from [COMPANY] — good news. Our techs have just signed off on your design and everything's locked in to go ahead. You're also fully qualified for [INITIATIVE / FUNDING] which is a nice bonus.

Next step is [ADMIN NAME] reaching out to either book in a pre-site visit or lock in your install date directly, depending on the job. Will be in touch soon. We're getting close.

PHASE 4A — PRE-SITE PATH

Only triggered if a pre-site visit is required. Confirmation cadence scales to the gap between booking and the visit:

- **Pre-site 7+ days away** → 3 touches (full sequence below)
- **Pre-site 4–6 days away** → 2 touches (skip the Date Check)
- **Pre-site ≤3 days away** → 1 touch (initial booking only)

4A.1 PRE-SITE BOOKING CONFIRMATION

Owner: ADMIN • Trigger: Immediately on booking • Channel: SMS

Hey [FIRST NAME], [ADMIN NAME] from [COMPANY] — good news, your pre-site visit is locked in for [DATE] at [TIME WINDOW]. Our team just needs to pop out and have a quick look at the site so we can finalise the install plan. No need to be home unless you'd prefer to be — just let me know either way. Any questions yell out.

4A.2 PRE-SITE DATE CHECK

Owner: REP • Trigger: 3 days after booking (skip if pre-site is ≤3 days away) • Channel: SMS

Hey [FIRST NAME], [REP NAME] here — just confirming the pre-site [ADMIN NAME] booked in for [DATE] still works your end? All good if anything's changed, just let me know and we'll shuffle it.

4A.3 DAY BEFORE PRE-SITE

Owner: ADMIN • Trigger: Day before pre-site • Channel: SMS

Hi [FIRST NAME], [ADMIN NAME] from [COMPANY] — quick reminder your pre-site is tomorrow, [DATE], between [TIME WINDOW]. Our tech will be in a [VEHICLE DESCRIPTION IF RELEVANT]. No need to do anything your end, just making sure it's still on the radar. Cheers.

4A.4 PRE-SITE WRAP-UP

Owner: REP • Trigger: 2 days after pre-site • Channel: SMS

Hey [FIRST NAME], [REP NAME] here — heard the pre-site went well. [ADMIN NAME] will be in touch shortly to lock in your install date. If anything came up on the day or you've got questions, just let me know. We're getting close.

PHASE 4B — IMMEDIATE INSTALL DATE PATH

Triggered when the install date is locked in early — no pre-site needed, or pre-site happens fast. The risk in this path is the long quiet stretch between booking and install day, so check-ins are about presence, not new info.

4B.1 INSTALL DATE LOCKED IN

Owner: ADMIN • Trigger: On install date confirmation • Channel: SMS

Hey [FIRST NAME], [ADMIN NAME] from [COMPANY] — your install is officially locked in for [DATE]. Going to send through what to expect closer to the day, but for now, you're booked, you're sorted, and we'll handle the rest from here. Excited for you.

4B.2 PRE-INSTALL CHECK

Owner: REP • Trigger: 2 weeks before install • Channel: SMS

Hey [FIRST NAME], [REP NAME] from [COMPANY] — just keeping you in the loop. Your install on [DATE] is tracking nicely. Anything changed your end or any questions popping up before the day? Happy to walk through what to expect if it'd help.

4B.3 FINAL CONFIRMATION

Owner: ADMIN • Trigger: Day before install • Channel: SMS

Hi [FIRST NAME], [ADMIN NAME] here — quick run-through for tomorrow's install:

- Crew lead: [NAME]
 - Arrival: [TIME WINDOW]
 - Power may be off for around [X] hours during the day
 - Please make sure there's clear access for the team and any pets are secured
- Anything else come up just give me a buzz on [OFFICE NUMBER]. See you tomorrow.

PHASE 5 — INSTALL DAY

The highest-leverage touch in the whole sequence. The customer is at peak emotional buy-in — they've just watched their system go up. This is where referrals get earned. Don't skip and don't rush.

5.1 INSTALL WRAP CALL + REFERRAL PITCH

Owner: REP • Trigger: Day of install (after completion) • Channel: Phone

PHONE CALL

Owner: REP • Channel: Phone

Hey [FIRST NAME], [REP NAME] from [COMPANY] — got a sec? (casual, friendly)

Just wanted to give you a quick call now that the install's all wrapped up. How'd the day go? Crew look after you alright? (curious, genuine) (listen / chat / address anything)

Awesome. (casual, warm) Look, before I let you go — these things genuinely live and die on word of mouth. (genuine, sincere) If you know anyone, family, neighbour, anyone who's been talking about getting solar or a battery, even just thinking about it, I'd really appreciate the intro. We look after anyone you send our way. (reasonable, no pressure) No pressure at all, just want to put it out there.

Cheers [FIRST NAME], enjoy the system. I'll be in touch in a week or so just to make sure everything's running sweet. (friendly)

VOICEMAIL (if no answer)

Owner: REP • Channel: Voicemail

Hey [FIRST NAME], [REP NAME] from [COMPANY] — just calling to check in now that your install's done. Hope the crew looked after you. Give me a buzz back when you get a sec on [YOUR MOBILE], or shoot me a text — keen to hear how it all went. Cheers.

POST-VOICEMAIL SMS

Owner: REP • Channel: SMS

Hey [FIRST NAME], [REP NAME] here — left you a quick voicemail. No stress, just wanted to check in on the install and make sure you're sorted. Give me a buzz back when you've got a sec.

PHASE 6 — POST-INSTALL

The long-tail touches that turn one-time customers into repeat referrers. Most companies skip these. That's exactly why they matter.

6.1 7-DAY REVIEW CHECK-IN

Owner: ADMIN • Trigger: 7 days after install • Channel: SMS

Hey [FIRST NAME], [ADMIN NAME] from [COMPANY] — you're a week in, how's the system treating you so far? Anything looking weird or any questions popping up? All good if not, just keen to make sure you're sorted.

Also — if you've got a spare 30 seconds, would mean the world if you could leave us a quick Google review: [REVIEW LINK]. No pressure at all, only if you've been happy with the experience.

6.2 30-DAY BILL UPDATE

Owner: ADMIN • Trigger: 30 days after install • Channel: SMS

Hey [FIRST NAME], [ADMIN NAME] here — you're a month into the new system. Your next power bill should start showing the difference. Worth comparing it to the same period last year to really see the drop. Any questions when it lands let me know, happy to walk through it with you.

6.3 3–6 MONTH FINAL CHECK

Owner: ADMIN • Trigger: 3–6 months after install • Channel: SMS

Hey [FIRST NAME], [ADMIN NAME] from [COMPANY] — been a few months now, how's the system going? Bills behaving themselves? Just doing my rounds making sure all our customers are happy and sorted. Any questions or anything you need, give me a buzz anytime.

A note on the long tail: Phase 6 ends at six months on paper, but happy past customers are the single best source of referrals for a solar business. There's no scripted sequence beyond this — but it's worth keeping a list of past customers and reaching out occasionally over the years. A casual check-in on the anniversary of their install, a message when there's a new rebate that might benefit them, a heads-up on battery upgrades a couple of years down the line. None of it has to be structured. The point is just that the relationship doesn't have to end at six months — and the companies that remember that compound their referrals for years.

SAFETY NET

The catch-all rule that runs alongside everything above. If a customer hits a 5–7 day gap with no contact between sale and install — for any reason — drop in a generic warm check-in from the rep. Doesn't need new info. Just signals they haven't been forgotten.

| SN.1 GENERIC WARM CHECK-IN

Owner: REP • Trigger: Any 5–7 day silence pre-install • Channel: SMS

Hey [FIRST NAME], [REP NAME] from [COMPANY] — just keeping you in the loop, your file's tracking along nicely on our end. Anything come up your end or any questions floating around? Yell out anytime.
